Close friends settings Remember that—even if you have a private account—there are ways to post that are even more selective. You can use the “Close Friends” setting on stories so that only certain people see them. People who are unable to see the story won’t know that they are missing something. To create your close friends list using the Instagram app: Step 1 - Tap in the bottom right then tap in the top right corner. Step 2 - Tap “Close Friends”, then tap “Suggestions” at the top. Step 3 - Tap “Add” next to the people you want to add to your close friends list. You can also tap “Search” to search for a friend - tap “Done” when you’ve finished adding people to your list.

Restrict an account Restrict is a new way to protect your account from unwanted interactions. If someone is being aggressive or negative in your comment section, you can put them on a “Restricted” list. To restrict a user: Step 1 - Go to the Privacy tab in “Settings” , or directly on the profile of the account you intend to restrict. Step 2 - Tap “Restricted accounts” then search for a user then tap “Restrict”. An easier way is simply going directly to the user’s account, tapping the three dots in the top right corner, and tapping Restrict.
